

Alabama's Older Population

Demographics At A Glance

Compiled by the Alabama Department of Senior Services

Summer 2010

Alabama's older population – persons 60 years of age and older – numbers 769,880 according to Census 2000, which is the most recent year for which U.S. Census Bureau actuals are available. This represents 17.3 percent of Alabama's total population (4,447,100), about one in six people. The Census Bureau's 2009 estimates, released in June 2010, indicate there are 907,089 persons age 60 and older in Alabama, which is 19.3 percent of the total population (4,708,708) and represents a 17.8 percent increase since the year 2000. Alabama's minority older population increased from 154,177 to 181,536 (17.7 percent).

Census 2009 estimates indicate that Alabama has 515,631 older women and 391,458 older men, which yields a sex ratio of 132 women for every 100 men. From 2000 to 2009, the Census Bureau estimates Alabama's age 85 and older population increased 21.9 percent (67,301 to 82,058). For Alabamians age 60 and older, the Census 2000 indicates 44.5 percent (202,156) live alone, 17.3 percent (343,372) live in rural areas, and 14.6 percent (112,210) live below the federal poverty level. Forty percent (45,050) of poor Alabamians have minority status.

The table on the next page identifies the projected number of older Alabamians thru 2030. Alabama's age 60 and older population is projected to increase from 769,880 to 1.32 million by the year 2030. This equates to a 72-percent increase since the year 2000.

Age 60+ Projections	
Year	Age 60+
2000	769,880
2005	820,698
2010	920,090
2015	1,036,023
2020	1,163,986
2025	1,268,024
2030	1,323,989
